HOSPITALITY & HOTEL MANAGEMENT

France boasts a wide array of lodging options for tourists and business travelers: hotels, tourism residences, resorts, outdoor accommodations, apartments, and more. The international elite flock to France's famed palatial hotels and restaurants, such as Le Bristol, Georges V, Plaza Athénée, Park Hyatt Vendôme, or Le Royal Monceau.

Until the Second French Empire, coaching inns flourished throughout France. These gave travelers a place to recover, sleep, and rest their horses. During the Second Empire, seaside resorts and luxurious hotels were built in cities such as Deauville, Touquet, and Arachon. After World War I, smaller luxury hotels began to appear. The first paid vacations during the interwar period fostered the development of budget hotels and vacation resorts for less wealthy patrons. During World War II, the great Parisian hotels were requisitioned and 50% were unusable after the war. The reconstruction plan allowed France to resume its position as a leading tourism destination in 1949. This paved the way for the emergence of a wide variety of accommodations: youth hostels, private family-style inns, resorts, bed and breakfasts, camp grounds, caravans, pleasure crafts, and chains and international groups in the 1970s. In recent years, more exotic types of lodging have become available: treehouses, yurts, monasteries, camper trailers, religious buildings, bubbles, and more.

France remains the world's top tourist destination with nearly 85 million visitors each year. Segmented by cost and quality, the French hotel industry offers one- to ve-star accommodations, including luxury hotels, budget-priced rooms, and major chain hotels.

Along with Switzerland, France has the distinction of being a top choice for international students. Its hospitality and hotel schools are among the most prestigious in the world.
